# PROJECT MANAGEMENT PLAN

# QUALITY ASSURANCE & QUALITY CONTROL

## STATEMENT

We own and employ a process for understanding, evaluating, defining and managing expectations so that customer requirements are met.

Our control system can measure, monitor and manage the variances to avoid any mismatching with customer requirements and schedules.

## QUALITY CONTROL

We believe in prevention over correction; We follow the requirements & checklists for every phase of the project. We ensure that customer requirements are met and process is being followed. We do “back check” process to ensure that all requirements and milestones are achieved

## QUALITY ASSURANCE

We believe that through the thorough application of checklists in the quality control process, required standards are correctly implemented and the desired results follow accordingly.

# SAFETY OPERATION

✓ Conduct weekly safety inspections.

✓ Conduct daily "Tool Box" talk & monitor the HSE requirements implementation on a weekly basis.

✓ Safety meetings with all contractors.

✓ Maintain the "Safe Work Day" sign.

✓ Coordinate Emergency Care and ensure easy access on First Aid Box onsite

✓ Manage the warning and evacuation systems.

✓ Maintain the accident record system.

✓ Assist in monthly supervisory safety meetings.

✓ Ensure proper access is in place to an onsite First Aid box.

## WORK FLOW

- Meet clients and conduct preliminary site surveys to obtain information for a basic project report.
- Review of drawings/specification, project performance
- Project initiation, designing, detail drawings and estimates
- Project planning by developing detailed cost estimation, schedule base lines, procurement, resource and Planning.
- Project Execution plan to meet the requirements as per contract terms & conditions.
- Procurement action to suppliers RFQ/Final LPO
- Inspection for anything that needs rectification before handover. Project hand over and closing. Provide orientation and training to the client's personnel about the project to ensure proper care and usage after turn over.
- Project progress monitoring and approval of contractual specifications, drawings, procedures and customer requirements for all external correspondence
